

## EARLY RELATIONAL HEALTH CONNECT JANUARY 2025

Welcome to **Early Relational Health Connect**. The Association's monthly snapshot of activities, updates, and information about the early relational health of Nevada's babies and young children. Happy New Year from our families to yours.

### What is Early Relational Health?

Early Relational Health refers to any and all of our work with prenatal people, babies, young children, and their families when our core focus on the emotional well-being and connection between a baby or young child and the important adults in their life. At the Association, we use this term nearly interchangeably with Infant Mental Health.

### Infant & Early Childhood Mental Health Endorsement®

IECMH Endorsement® is an internationally-recognized credential that verifies and recognizes the specialized training and experience in culturally responsive and relationship-based practice that IECMH providers have attained. The Association is a member of the Alliance for the Advancement of Infant Mental Health so that we can provide this Endorsement to Nevadans. Learn more about the Alliance [here](#).

### Connect with us during office hours

Join us for **Virtual Office Hours!** These drop-in meetings allow you to connect & chat with NV-AIECMH staff to talk about the Association, the journey to Endorsement, the IECMH Competencies, and membership.

Join [here!](#)

NV-AIECMH is the only statewide professional association that supports, trains, and connects the cross-system infant and early childhood workforce. We welcome you to connect with us in whatever ways work best for you. When you decide to become a member, you can gain access to lots of learning, connecting, and networking opportunities including Competency Guidelines for professional development.
